TECH CENTER 1600/2900

In the Specification:

On page 1, after the Title and before the Field of the Invention, please insert the following:

A' -- This application is the National Stage of International Application No. PCT/US99/20122, filed September 1, 1999, which claims the benefit of U.S. Provisional Application No. 60/098,791, filed September 1, 1998. --

In the claims:

Please cancel claim 14, without prejudice.

Please amend the claims as follows:

AB SUB B 1. (amended) A composition for delivery of a molecule to the nucleus of a eukaryotic cell comprising a nuclear targeting peptide containing a nonclassical, nuclear localization signal which does not interact with importin- $\alpha$  and importin- $\beta$ .

AB SUB B 7. (amended) A compound comprising:

- (a) a cationic peptide scaffold; and  
(b) a nuclear targeting peptide containing a non-classical nuclear localization sequence which does not interact with importin- $\alpha$  and importin- $\beta$ , said cationic peptide scaffold being
